Healthcare in Australia

We have over 65 years experience and understand that healthcare can be confusing to new visitors. That’s why we aim to provide the best advice and support to help you find what’s right for your needs.

What is Medicare?
Medicare is Australia’s public healthcare system - for all citizens and most permanent residents. It provides free or subsidised cover for certain healthcare services.

Do I have access to Medicare?
If you’re applying for a student visa, a current student or looking to extend your student visa you will not generally have access to Medicare.*

The Private Healthcare System
The private system includes health insurers like Bupa, who work with Medicare to provide Australians with access to medical services and health providers.

*Students from selected countries may have some access to Medicare, however may still require OSHC. Visit www.humanservices.gov.au/customer/enablers/medicare/reciprocal-health-care-agreements/healthcare-for-visitors-to-australia to find out more.
