

# STUDY ONLINE COURSES AT TAFE INTERNATIONAL WESTERN AUSTRALIA

## AHC31416 CERTIFICATE III IN CONSERVATION AND LAND MANAGEMENT

CRICOS ID: 092552F

Course delivered by Central Regional TAFE

RTO provider number 52789

Are you interested in a career in the conservation industry? Yes, then this is the course for you.

This course will provide you with skills in areas such as:

- > plant identification, seed collection and propagation;
- > weed management and chemical application; and
- > participate in revegetation projects;
- > navigating trackless routes.

This course will show you how to apply the appropriate strategies to restore degraded environments and implement ecological restoration practices including bush regeneration and revegetation works. You can enhance your career prospects by continuing your studies and enrolling into AHC40916 Certificate IV in Conservation and Land Management.

### Overview

- > **Commencement date:** 19 July 2021.
- > **Duration:** Six month program of full-time study.
- > **Completion date:** December 2021.
- > **Delivery method:** Online via Blackboard with enrolment in clusters of units.
- > **Learning style:** Self-paced.
- > **Eligibility:** This course is only available for offshore students who wish to commence studies online prior to Australia's international borders reopening.
- > **Tuition fee:** \$6,240.

### Entry requirements

- > An IELTS score (academic) of 5.5 with no band score less than 5.0 or equivalent.
- > Equivalent to Australian Year 11.

# AHC31416 CERTIFICATE III IN CONSERVATION AND LAND MANAGEMENT

To achieve this qualification, competency must be demonstrated in 16 units of competency comprising:

- > Two core units; and
- > 14 elective units.

## Core units

AHCWHS301	Contribute to work health and safety processes
AHCWRK309	Apply environmentally sustainable work practices

## Elective units

AHCPCM202	Collect, prepare and preserve plant specimens
AHCFAU201	Recognise fauna
AHCWRK311	Conduct site inspections
AHCCHM304	Transport and store chemicals
AHCCHM303	Prepare and apply chemicals
AHCPMG301	Control weeds
AHCPCM303	Identify plant specimens
AHCWRK305	Coordinate work site activities
AHCSAW302	Implement erosion and sediment control measures
AHCNAR303	Implement revegetation works
FWPCOT3202	Navigate in remote or trackless areas
AHCNAR301	Maintain natural areas
AHCWRK302	Monitor weather conditions
AHCNAR305	Collect native seed

Your work in this industry will be focussed across various areas such as natural area restoration, land management, natural resource management, mine site rehabilitation, with areas of specialisation in Indigenous land management, weed management, vertebrate pest management, parks and wildlife management, conservation earthworks, and marine conservation.

You will have the skills and knowledge to work effectively in the land conservation industry, maintaining natural areas and wetlands, providing cultural knowledge, revegetation programs, planting shrubs and trees, treating weeds, collecting seeds, and workplace safety and health.

Working in the Conservation and Land Management industry is for people who would love to work in an outdoor environment and recognise the value in restoration of natural bushland and coastal areas.

## Job outcomes

- > Land Rehabilitation Worker
- > National Parks Worker
- > Wildlife Ranger
- > Revegetation Worker
- > Conservation Crew Team Member
- > Pest Control Officer
- > Invasive Weed Officer
- > Earthworks Conservation Technician

This course is superseded. You can still enrol in this course, and you will be contacted if you need to transition into the next version when it is available.
