Disclaimer:

Every effort has been made to ensure the information in this document is correct at the time of printing, however changes may have been made since that date.

The most up-to-date and accurate information is provided on the website at [tafeinternational.wa.edu.au](http://tafeinternational.wa.edu.au)

TAFE International Western Australia reserves the right to alter any course, fee, subject, admission requirement or other arrangement without prior notice.

TAFE International Western Australia (TIWA) is the registered training organisation (RTO) and Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS) provider for the delivery of courses to international students for vocational education and training (VET) in Western Australia (WA). VET courses are delivered by a WA TAFE college on behalf of TIWA, which ensures the quality of training and assessment delivered by the college and the issuance of certification.

WESTERN AUSTRALIA
BE AMAZED
If you love adventure, incredible scenery, a wonderful climate, and unique cultural and culinary experiences, you will love Western Australia (WA). With its amazing lifestyle, welcoming people and dynamic towns and cities, WA is the perfect place to explore and continue your education journey.

Discover
From exquisite coasts, to majestic forests, to the enchanting outback, WA’s landscape is amongst the most diverse and extraordinary in the world. Discover WA’s vast wilderness in the north. Marvel at the rugged shoreline and stunning wine regions of WA’s south. When you study and live in Australia’s largest state, your adventure never stops.

Smile
Follow in the famous footsteps of Roger Federer, Margot Robbie and Chris Hemsworth by cruising to Rottnest Island and sharing a selfie with the “world’s happiest animal”. The cute, ever-smiling quokka welcomes visitors to this beautiful, car-free nature reserve. Just a short ferry ride from Perth, you can visit the island’s museum to learn about its incredible history, or cycle to its 63 secluded beaches – some of the finest in the world.

Marvel
Imagine magical vistas of deep red dirt, met by striking beaches and warm, blue skies. This is the North West of WA. World-class snorkelling on Ningaloo Reef allows you to swim with whale sharks and turtles. Climb through the amazing gorges of Karijini National Park, and before you camp for the night amongst the sounds of the bush, gaze at the stunning starlit night. In Broome, ride a camel along Forty Mile Beach and learn about the local pearl fishing industry. Or say hello to Monkey Mia’s friendly wild dolphins.

Unwind
The cooler South West of WA is home to towering forests, world-famous wine regions, breathtaking natural caves, rugged coastline and unique wildlife. As you meander through the region’s peaceful valleys and forests, from Bunbury to Albany, enjoy sumptuous vineyards and the freshest local produce. Surf the world-famous breaks around Margaret River or soak in the serenity of The Tree Top Walk in Walpole’s Valley of the Giants. Swim between granite boulders in the crystal clear waters of Greens Pool and Elephant Rocks. Watch for whales off the coast of Albany, or spot the cockatoos calling from the skies above Boranup. The wonders of this region are endless and just a few hours’ drive from Perth.
Dynamic by design

Perth balances modernity, energy, space and relaxation. Between dazzling skyscrapers and historic sites, you’ll find car-free zones, cultural precincts and tranquil gardens. There are bustling train stations, free transit zones and dedicated bike paths. Catch a cruise to the Swan Valley or the coastal town of Fremantle. Take a ferry to South Perth to visit Perth Zoo and marvel at views of the city across the Swan River. Perth is all things to all people.

Brands to bargains

If you love to shop, Perth is for you. There are malls, arcades, department stores and discount outlets waiting to be discovered. 900 specialty stores across the city include luxury icons like Prada and Gucci, and retail leaders like Zara and H&M. You will also find local and indigenous art, and plenty of souvenirs.

Cheap eats and tasty treats

Perth is one of Australia’s most diverse cities. Over half its residents have at least one parent who was born overseas. Over 240 languages - including Aboriginal languages - are spoken in WA. It is a melting pot of cultures and cuisines. Whether you crave chicken rice, a bowl of pho, or some fresh local seafood, you’re spoilt for choice. Alongside locally produced chocolate, cheese and wine, you will find pasar malam night markets, offering food from around the world.

Unwind, discover, enjoy

Perth offers many unique spaces, designed to connect, educate, enrich and involve. Here are some must-sees:

**Yagan Square** - named after a Noongar warrior, this exciting, artistic place of unity joins Perth’s main train station with the entertainment precinct of Northbridge and the Perth CBD. Yagan’s statue watches proudly over those commuting to and from work, or meeting friends for something to eat and drink.

**Elizabeth Quay** – as the CBD’s waterfront, the Quay connects the Swan River with the city centre. Enjoy the BHP Billiton Water Park or cruise up and down the River while enjoying WA’s finest cheese and wine. Play basketball, climb the famous Bell Tower or tuck into some fresh fish and chips.

**Perth Cultural Centre** – this is the vibrant home of the Western Australian Museum, the Art Gallery of Western Australia, the State Theatre and the State Library. The Centre is Perth’s heart of knowledge and culture. There’s an urban orchard, a native wetland, and a program of activities for anyone to join.

**Kings Park and Botanic Garden** – this stunning bushland garden is recognised as one of the world’s largest inner-city parks and is affectionately known as the people’s park. Enjoy breathtaking views of the CBD and Perth Hills, or explore the lush, rolling lawns and quiet forest areas. Get there early for a spectacular sunrise, or take your time and enjoy an afternoon picnic under towering eucalyptus trees.

Perth, the capital of Western Australia, is one of the world’s most livable cities. It is also Australia’s most affordable, one of the many reasons you will love studying here.
Get active, go outdoors, be entertained

There is no better place than WA when it comes to activities, sport and getting outdoors. In Perth, you’re never far from a running path, cycle track, basketball hoop, soccer field, badminton court or swimming pool. Explore something different: grapple with rock climbing, learn to surf, hike through the Perth Hills, or discover Frisbee golf! When you're tired of doing it yourself, why not watch the pros do it? Perth is home to some of Australia’s most successful sporting clubs. The West Coast Eagles were the 2018 Australian Football League champions. The Perth Wildcats won the National Basketball League in 2019 and 2020. Perth’s soccer team, the Glory, are the current A League premiers. If tennis is your thing, the thrilling ATP Cup is held in Perth, and has been played by the likes of Rafael Nadal and Novak Djokovic. Perth has some of the world’s most advanced sporting arenas. The 60,000-seater Optus Stadium was voted 2019’s most beautiful sports facility at the Prix Versailles World Architecture and Design Awards. But it holds more than just global sporting events, concerts are regularly held here, with recent performances by U2, Eminem, Taylor Swift and Ed Sheeran.

What’s the weather like?

It’s great! Perth has a Mediterranean climate, which produces hot dry summers and cooler, moist winters. Perth has more hours of sunshine than any other city in Australia. It is blessed with clear skies and clean air, which together make many a sunrise and sunset exquisite works of natural art. Perth is the last city in Australia to see the sunset each day, and you can watch it drop behind the blue horizon of the Indian Ocean at any of one of Perth’s numerous beaches.

TAFE International Western Australia (TIWA) offers certificates, diplomas and advanced diplomas to international students in a wide range of interesting study areas. Here are eight great reasons you will succeed with us.

1. Accessible
Our entry requirements are lower than university. Some courses only require completion of the equivalent of Australian year 10 or 11. From some courses, you can also pathway to university with credit. Start your studies sooner, get qualified earlier, find employment faster.

2. Affordable
Our courses are cheaper than university. TIWA offers great value for money – and even better, many of our courses are delivered in Perth, Australia’s most affordable city. Study with us, invest well in your future.

3. Employable
Our courses get you ready for work. The skills you gain are in demand and closely aligned to industry. TIWA makes you job ready for an exciting, relevant and rewarding career. Get that competitive edge, become employable.

4. Regional
Study in Perth, a major Australian city and the capital of WA. Perth is a designated regional centre, providing you opportunities to prosper in WA after completing your studies. You can also study in Albany, Bunbury, Margaret River and Geraldton. Our campuses in these popular regional, coastal towns offer you a unique, rural Australian experience.
5. Quality
Our history goes back over 100 years. TIWA is owned and operated by the WA State Government. Our globally recognised courses produce skilled graduates ready to join the workforce. Choose a high quality, secure learning experience.

6. Diverse
Choose from over 130 courses in a range of exciting study areas. Better still, you can study in 19 different locations around Perth and WA. Our staff and students come from over 100 nationalities. Join a diverse, welcoming, enriching learning environment.

7. Equipped
Benefit from our purpose-built, state-of-the-art campuses, managed by industry-experienced staff and teachers. Small class sizes mean you can learn as an individual as well as a group. Along with extensive social and support structures for international students, our training facilities include:

- cafes and restaurants open to the public;
- commercial kitchens;
- health clinics, laboratories, beauty and wellness centres;
- horticulture and conservation resources;
- an oil and gas processing plant;
- aquaculture farms and animal clinics;
- engineering workshops and automotive skills centres;
- art galleries and creative suites;
- digital, film and television studios; and a radio station;
- fashion and merchandising hubs; and
- boats, maritime simulators and airport-based aviation hangars.

8. Integrated
Relevant, practical experience is incorporated into your studies. Develop your skills through hands-on learning, apply them in real-life scenarios, graduate with workplace confidence. TIWA integrates work placements into many of our courses. Some of these are real-life placements with one of our industry partners, others are simulated. Step out of the classroom and get real-world insight into your chosen industry. Learn from and be mentored by industry professionals. Build your on-the-job skills.

TIWA’s study areas that include work placements in registered offsite agencies with industry partners are:

1. Before you apply
Browse this course guide to find a course or package that interests you. Please visit our website at tafeinternational.wa.edu.au/courses for the latest course information.
TIWA has two intakes per year - February and July. It is important to check the website to make sure your course has an intake in the required semester.
Semester dates can be found on our website - tafeinternational.wa.edu.au/your-study-options/study-at-tafe/semester-dates You will find the visa requirements to study at TIWA by visiting the Department of Home Affairs website at homeaffairs.gov.au/trav/visa-1/500 Use the ‘Document Checklist Tool’ to type in our CRICOS code 00020G and your passport nationality which will then give you the visa requirements to apply.

2. Submit an application
Submit your application using our online application form on our website tafeinternational.wa.edu.au/apply
For more information regarding application dates please visit our website at tafeinternational.wa.edu.au/application-dates
If you want to use an education agent to help with your application you can view a list of authorised TIWA education agents for your country at tafeinternational.wa.edu.au/agentfinder
It is a requirement that students from certain countries use a TIWA-authorised education agent to submit their study and visa application.

3. Receive offer
If your application is successful, you will receive a Letter of Offer.

4. Meet conditions
You must meet any conditions listed in your Letter of Offer, before accepting and making payment.

5. Accept offer
To accept your offer, you need to sign the Acceptance Letter and make payment.

6. Receive Confirmation of Enrolment
After you have met all the conditions, signed the Letter of Acceptance and made payment, you will be issued your Confirmation of Enrolment (CoE).

7. Start your studies
When your student visa is issued you can make plans to start your studies at TIWA. Make sure to check the orientation dates for your campus before you make travel arrangements as you need to arrive in time for orientation.

For a detailed description of the TIWA application process please visit tafeinternational.wa.edu.au/application-process
English language requirements

The minimum level of English proficiency required for entry into most TAFE courses is the equivalent of an overall academic IELTS 5.5 with no band lower than 5.0.

For some countries we may accept your high school English results. Please refer to our admissions requirements section of the course guide for more information.

Some of our courses may require a higher level of English i.e. academic IELTS 6.0/7.0. You can find this information in the course section of this guide.

Please note the Department of Home Affairs approved English tests are only valid for two years.

Package an English course with a TAFE program

Students who need to improve their English can package an English course with their TAFE program.

TIWA offers English Language Intensive Courses for Overseas Students (ELICOS). An ELICOS course will help you meet the admission requirements for a TAFE course or can develop your English skills to further your career. Please refer to the English Language section of this guide for more information.

TIWA also has partnerships with a range of private English language partners which can give you direct entry into our courses once the required level is achieved. For a list of English language partners please visit tafeinternational.wa.edu.au/englishpartners

RTO NUMBER: 52786
South Metropolitan TAFE is one of Western Australia’s largest and most diverse vocational training providers, delivering training to thousands of local and international students every year. Our training facilities are extensive and depending on your course, you may experience training in our award winning Bentley Pines training restaurant or our fully operational oil and gas facility. We also know there’s more to student life than just study, so you may want to get involved in the college social activities such as the annual Rottnest Island tour - a great way to meet new friends. Study support is also available on campus, to help you reach your study goals.

TAFE International Western Australia reserves the right to alter any course, fee, subject, admission requirement or other arrangement without prior notice.
TAFE International Western Australia (TIWA) is the registered training organisation (RTO) and Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS) provider for the delivery of English language courses to international students in Western Australia.

“I chose to study English at TAFE because it is one of the best education providers for international students. My course has helped me to improve my grammar, pronunciation and social skills. I love the Boomerang activities as you can get to meet new people and learn from them. I would like to share that my teacher is terrific and gives us the best experience in our English course. I feel more confident with the English course as my starting point and it has helped me to adjust to a new environment.”

Matthew Corpuz | Philippines

English for Academic Purposes
You can choose from the following courses to help fulfil your English language goals.

**English Language Intensive Courses for Overseas Students (ELICOS)**

TIWA delivers ELICOS in partnership with Navitas English.
Campus location: 211 Newcastle Street, Northbridge WA 6003
Tuition fee (AUD): $300 per week

**Accredited ELICOS Centre**

TIWA has the following accreditation and memberships:

- Accredited by NEAS Australia for the provision of the highest quality English language teaching programs.
- English Australia (EA) membership: the peak professional body for all accredited English language (ELICOS) centres in Australia.

ELICOS can be packaged with TAFE courses to ensure you meet English requirements for your chosen course.

The minimum level of English proficiency required for entry into most courses is the equivalent of Academic IELTS 5.5 with no band lower than 5.0. Some courses may require a higher English level.

English requirements for your chosen course can be found in the course section of this guide.

**Resource fees**

All students are required to pay an ELICOS resource fee of $180 AUD upon arrival at the college. This is a one-off fee and will cover the use of resources and materials such as English course books, additional printed materials and access to specialised software licenses to use during your studies.

**Social activities**

The social activities program is called ‘Boomerang’ and through this program you can participate in cultural, sporting and social activities with students from all over the world. Social activities are a wonderful way to make friends, practise English and have lots of fun!
Accounting, business and management qualifications will provide you with a wide range of career options. From developing a business idea to ensuring the right people, processes and structures are in place to achieve a strategy, your TIWA courses are designed to teach you not only the fundamentals but also the problem solving, managerial and organisational skills needed to thrive in the global marketplace.

During my course, I did many new activities that I really enjoyed. For example a reflective journal, where I wrote what I learnt that day. We also made a magazine using different ways of communication like wiki, and we utilised a virtual platform with many resources for information. I gained a lot of new knowledge.

Another important experience for me was facing the challenge of studying something in another language, in another country and understand everything, whilst making lots of friends.

Adriana Gonzalez Herrera | Colombia

Why choose this course?

Embark on an exciting career in the marketing and communication industry with this qualification. This course prepares you to make a strong impact on your workplace colleagues by teaching you a range of strategic marketing and communication skills which will leave a lasting impression.

During your studies, you will learn the skills to design and develop integrated marketing communication plans, interpret market trends, create mass electronic media and print advertisements and write persuasive copy. You will gain an understanding of the principles of market research in order for you to interpret customer needs and implement a successful marketing program. Gain confidence in public speaking, work with clients across broad industries and develop strategic marketing approaches based on research.

Upon successful completion of this course, you will have developed a range of creative and business communication skills which will be adaptable across a range of industries.

Career opportunities

» Market Research Specialist
» Marketing Coordinator
» Public Relations Manager
» Marketing Communications Manager

UniPathway options available at tafeinternational.wa.edu.au/unipathwayfinder
Animal care, aquaculture and fishing operations are all popular industries around the globe. TAFE can provide you with the training and skills to work with future demands of caring and working with companion animals and developing and producing sustainable sources of seafood that are supplied to local, national and international markets. We can help you achieve your career goals.

I really wanted to study veterinary nursing in WA, and wanted training with a face-to-face classroom component. South Metropolitan TAFE offered a program with classroom learning, an on-site training clinic, an on-site surgery, and additional learning at a work placement in Perth. The class sizes are small and the team atmosphere is great, which creates a supportive environment for learning. Having the clinic and surgery training helped break up the lectures, and helped make the transition of learning from the book to the patients. The teaching staff were all highly educated, and have a passion for both veterinary medicine, and teaching and made sure to push us to do our best.

Emma Boone  |  USA

or visit our website for all course info tafeinternational.wa.edu.au/courses

ANIMAL CARE AND AQUACULTURE

ACM30417 Certificate III in Companion Animal Services
TAFE ID: BDM6 | 099961K

Why choose this course?
Kick start your career in the animal industry and broaden your knowledge to give you the capacity to provide the best care for companion animals. Get a wealth of hands-on experience and be job ready to work in animal shelters, boarding kennels, pet stores and grooming salons.

You will learn the skills to work effectively with companion animals, monitoring and maintaining their health, nutrition, wellbeing, animal first aid, grooming, and workplace safety and health.

All these skills will then be used when you embark on a compulsory work placement, where you will undertake routine animal care procedures under the direction of a supervisor. There is also a simulated animal workplace on campus that you can access to practice these skills.

Students studying at the Bentley campus will be working with dogs, fish, mammals and reptiles. Students studying at the Murdoch campus will be mainly working with dogs and fish.

Work placement
This course has an industry work placement component that you will be required to complete.

» South Metropolitan TAFE (Bentley campus) - 120 hours
» South Metropolitan TAFE (Murdoch campus) - 60 hours

Career opportunities
» Animal Carer
» Kennel Operator
» Pet Shop / Aquarium Assistant

ACM40418 Certificate IV in Veterinary Nursing
TAFE ID: J481 | 082428D

Why choose this course?
Turn your love for animals into a rewarding career as a veterinary nurse or animal welfare worker with this qualification.

You will learn the skills to work effectively in a veterinary practice, providing care to a wide variety of animals, assisting with surgery preparation and procedures, performing pathology and imaging procedures, providing post-surgery care and advice, and workplace safety and health.

Part of this course requires you to participate in practical training at the veterinary clinic located on campus. You will also be required to undertake a compulsory work placement at an approved animal facility.

Work placement
This course has an industry work placement component that you will be required to complete.

» South Metropolitan TAFE - 240 hours

Career opportunities
» Veterinary Nurse
» Animal Welfare Worker
» Animal Carer
» Veterinary Surgical Assistant

ANIMAL CARE AND AQUACULTURE

Why choose this course?
Turn the ocean into your office with a career in the aquaculture industry. This qualification will provide you with the practical skills and knowledge to manage the operations of fish farms, marine farms and hatcheries. You will learn skills in developing and implementing a breeding strategy, planning ecologically sustainable practices, biosecurity, managing stock health, developing a stock production plan, managing staff and business operations and developing marketing strategies that comply with government regulations and restrictions.

Our campuses have extensive salt and freshwater aquaculture facilities that will enable you to acquire practical, hands-on training that relates directly to the aquaculture industry.

Students at Geraldton campus will have access to the Batavia Coast Maritime Institute (BCM) for a minimum of 3 days per week in a simulated workplace and aboard the training vessel master class.

Career opportunities
- Fish Farm Technician
- Farmer/Breeder
- Field Officer
- Fisheries Officer

Engineering is a growing global industry. TAFE has a broad range of courses that you can choose to study such as automotive technology, civil construction design, civil and structural engineering, electrical engineering, mechanical engineering, surveying and process plant operations specialising in oil and gas techniques. If this industry is your career choice, then TAFE has got you covered.

The best thing about my course is the hands on training and also the modern facilities and equipment. It is a very conducive environment for international students to study. It really helps me to be able to receive a high quality engineering education from TAFE. I can experience things that I never had the opportunity to do in my life, especially the hands on training. It gives me the skills to learn new things and not only learn theories. TAFE provides a globally accredited education that assists students to harness their skills and potential to be job ready in the future.

John Erick Flores | Philippines
MEM50212 Advanced Diploma of Engineering
TAFE PATHWAYS
Where can your course take you?

All courses listed require an IELTS score (Academic) 5.5 with no band less than 5.0 or equivalent, unless otherwise stated. Tuition fees are current at the time of printing and reviewed annually. Resource and materials fees may apply and vary between campus locations. For the most up-to-date course and fee information please visit our website tafeinternational.wa.edu.au/courses. Work placement hours are subject to change and may vary between campus locations. For up-to-date information please download a course flyer from our website tafeinternational.wa.edu.au/courses.

KEY
F = February Intake
J = July Intake
$ = Tuition Fees are in AUD.
* Students who do not have the Year 12 equivalent can still enrol into these courses by completing a Certificate III in Engineering – Technical for an extra 6 months.

UniPathways
Start your studies at TAFE then continue to university with a UniPathway. You could save time and money with up to a year credit towards your university course. UniPathway courses are indicated by a symbol.

AUTOMOTIVE, ENGINEERING AND OIL AND GAS

AUR50216 Diploma of Automotive Technology
TAFE ID: BAE1 | 091696J

Why choose this course?
Embark on a dynamic career in the automotive technology field. Get hands on with our practical training to diagnose, analyse, evaluate, design and modify automotive electrical and mechanical systems.

You will gain the skills to identify faults in braking systems, fuel systems, transmission and driveline systems and steering and suspension systems and decide on the best course of action to repair these issues, using environmentally sustainable work practices. On completion you will also be able to develop and document specifications and procedures and overhaul engines and associated engine components.

Completing this course will give you the knowledge and some of the skills of an automotive mechanic, however you will not receive a trade certificate or be able to work as a fully qualified mechanic without achieving the Provisional Skills Assessment requirements of Trades Recognition Australia.

Please note: international students may not be able to achieve this recognition due to visa restrictions. For more information, please visit tradesrecognitionaustralia.gov.au

Career opportunities

» Service Technician

ENGINEERING

RII50515 Diploma of Civil Construction Design
TAFE ID: AZE3 | 089827K

Why choose this course?
Start your pathway to an exciting career in civil construction and urban planning. This course will teach you to work autonomously to plan and determine the selection of equipment, roles and techniques for site-specific work designs to meet client’s site requirements and demonstrate the application of a broad range of technical, managerial, coordination and planning skills.

Learn how to schedule and estimate construction tasks, calculate foundation and footing requirements, and manage a project schedule. In addition you will learn about structural requirements, local building and construction standards, codes and practices and structural mechanics. You will create detail drafting, technical specifications, schedules, and bill of quantities for a building project.

On completion of this course you will have the ability to manage contracts, develop sketch designs, drawings and specifications suitable for construction purposes, prepare scope of work documents and undertake cost estimates.

Career opportunities
» Civil Engineering Drafter
» Civil Engineering Designer

UniPathway options available at tafeinternational.wa.edu.au/unipathwayfinder

RII60515 Advanced Diploma of Civil Construction Design
TAFE ID: AZA8 | 089832B

Why choose this course?
Engineer your future for a hands-on career in civil construction. Learn the skills to participate in the creation of infrastructure facilities such as roads, railways, buildings, water reservoirs, subdivisions, airports, bridges, sewer systems, tunnels, dams and other public works. This course will provide you with the knowledge and skills needed for the roles of senior civil works designers, or para-professional designers who support professional engineers. On completion, you will have the expertise to perform tasks that are broad, specialised, complex, technical, and include strategic areas and initiating activities.

Gain skills in managing the civil works design process, program risk, application of safe design principles and establishing and maintaining a quality system.

Career opportunities
» Senior Civil Designer
» Technical Manager

UniPathway options available at tafeinternational.wa.edu.au/unipathwayfinder

ENGINEERING

52725WA Diploma of Civil and Structural Engineering
TAFE ID: 3746 | 087705C

Why choose this course?
Shape the future of the civil engineering industry with this qualification. This course will provide you with the knowledge and leadership skills required for the principal areas of civil construction so that you can establish yourself in this expanding industry. You will be taught engineering drafting standards AS1100 and gain exposure to CAD packages selected from AutoCAD, Microstation, Revit and 12D.

You will learn sustainability principles and produce civil construction drawings as part of your assessment.

Gain skills to work with steel and concrete structures, design principles of bulk earth works and plan civil works.

Career opportunities
» Civil Engineering Draftsperson
» Civil Engineering Technician
» Civil Engineering Design Draftsperson
» Road Design Draftsperson
» Structural Engineering Drafting Officer

UniPathway options available at tafeinternational.wa.edu.au/unipathwayfinder

52724WA Advanced Diploma of Civil and Structural Engineering
TAFE ID: 3745 | 087708B

Why choose this course?
Join the next generation of civil and structural engineering experts. This comprehensive qualification in civil and structural engineering provides you with the skills and knowledge to work on projects ranging from skyscrapers to intricate road designs and expands your study of the design and construction of civil works like dams, structures and pipe networks.

This course covers a range of engineering specialities such as road, rail, and drainage systems, dams, harbours, bridges and buildings in order to extend your knowledge so that you can plan, design, develop and manage construction and repair projects relating to these disciplines.

You will learn a range of engineering drafting standards and receive exposure to CAD programs selected from autocad, microstation, revit and 12D.

Gain skills in applying construction principles to civil engineering works, produce advanced engineering designs and drawings, 3D CAD in engineering and learn structural analysis in engineering.

After completing this course you can continue your education at university.

Career opportunities
» Civil Engineering Draftsperson
» Civil Engineering Technician
» Senior Draftsperson
» Design Draftsperson
» Civil Engineering Assistant
» Engineering Associate

ENGINEERING

MEM50212 Diploma of Engineering - Technical
TAFE ID: J367 | 079078C

Why choose this course?
Progress your career in a wide range of engineering fields by completing this course. This course will provide you with the practical skills and knowledge in electrical machinery, mechanical principles and mechanical equipment to produce drawings for design specifications.

Learn how to use and operate computer-aided design (CAD) system to produce drawings and create 3D models, set up basic hydraulic circuits, apply technical mathematics and produce basic engineering design drawings. In addition you will coordinate engineering projects and learn environmentally sustainable work practices.

Once you have successfully completed this course you will be able to work in a number of different engineering related careers including mining and mineral processing, manufacturing, the oil and gas industry and the automotive industry.

Career opportunities
» Mechanical Engineering Draftsperson
» Mechanical Engineering Technician
» Junior Drafter
» Junior Project Supervisor
» Engineering Associate

UniPathway options available at tafeinternational.wa.edu.au/unipathwayfinder

MEM60112 Advanced Diploma of Engineering
TAFE ID: J368 | 079074G

Why choose this course?
Broaden your engineering future with this qualification. This course will enhance your practical skills and knowledge, enabling you to carry out many tasks including mechanical engineering drafting and design and analytical work involving manufacturing and fabrication techniques.

During your studies you will be guided to apply engineering principles, systems and processes, increase your knowledge of maintaining mechanical systems and gain an understanding of workplace health and safety requirements.

On completion of this course you can continue to study at University where you may apply for advanced standing towards a relevant degree.

Career opportunities
» Engineering Associate
» Design Drafter
» Mechanical Engineering Technician

UniPathway options available at tafeinternational.wa.edu.au/unipathwayfinder

MEM60112 Advanced Diploma of Engineering
Heating, Ventilation and Air Conditioning (HVAC) TAFE ID: WB89 | 079074G

Why choose this course?
Enhance your specialist skills in heating, ventilation and air conditioning systems with this qualification. This course gives you a number of advanced skills during your studies including designing and implementing HVAC systems using CAD, understanding fluid and thermodynamics principles and the use of psychometric processes.

When you complete this course, you will have the knowledge to evaluate thermal loads and performance, analyse noise and vibration, apply energy management principles, build information models and apply engineering mechanics principles. A component of this course also requires you to uses mathematics skills such as calculus, algebra, statistics and probability.

As a student, you will be encouraged to register for student membership with the Australian Institute of Refrigeration, Air Conditioning and Heating (AIRAH), which will provide you with access to a range of industry events where you will have valuable networking opportunities. It is important to be aware that this is an engineering based qualification and will not result in a trade qualification being issued.

The HVAC facilities at South Metropolitan TAFE, are considered to be Western Australia's premier centre for heating, ventilation and air conditioning studies. The purpose built facility is among the best in the southern hemisphere.

On completion of this course you will have a solid foundation to advance your career or continue your studies at university level.

Career opportunities
» Mechanical Design Engineer
» Project Manager
» Sales Consultant
ENGINEERING

**UEE62111 Advanced Diploma of Engineering Technology - Electrical**

**TAFE ID: A175 | 077193E**

**Why choose this course?**
Take your electrical engineering career to the next level with this qualification. This two year course will give you the skills to enter this exciting industry.

This course covers a range of capabilities such as electronic design, Programmable Logic Controller (PLC) programming, motor control, sustainable practices, Supervisory Control and Data Acquisition (SCADA) and low voltage installations. You will also learn how to diagnose faults and malfunctions in electrical systems and have the knowledge to provide solutions to these problems.

Part of this course includes planning and writing specifications and developing your skills in order to manage large electrical projects including associated risks that can arise. When you finish this course, you will have the abilities to work in this industry and be responsible for electrical and control support including administering and upgrading infrastructure.

South Metropolitan TAFE has developed a unique prototype facility, which is located at the Munster Campus. This has been based on an international model to support training in both emerging and current technologies and advanced automated manufacturing. This facility allows the delivery of this course to be simulated towards a manufacturing and production outcome, improving levels of productivity in design and manufacture. The Munster campus also has computer-aided design laboratories which reflect the technology and configuration found in an industrial setting.

On completion of this course you will have a solid foundation to advance your career or continue your studies at university level.

**Career opportunities**
- Electrical Engineering Associate
- Electrical Engineering Draftsperson
- Electrical Technology Advisors
- Electrical Engineering Technician

**UniPathway options available at**
tafeinternational.wa.edu.au/unipathwayfinder

---

PROCESS PLANT TECHNOLOGY

**PMA50116 Diploma of Process Plant Technology**

**TAFE ID: BAN5 | 092174E**

**Why choose this course?**
Start yourself on the path to the career in process plant operations. This technical based course will provide you with the skills and knowledge you need to undertake projects such as plant design and process plant operations. During your studies you will also learn about engineering principles, how to manage plant modifications, understanding energy and mass balances and managing risk management and safety cases, either individually or as part of a project team.

You will develop the ability to analyse product failures, plant performance and equipment along with the specialised knowledge needed to contribute and assist in the development of new products. This course can open up a range of possibilities in a range of industries such as chemical, oil and gas, hydrocarbons, emerging battery technology processing and refining.

South Metropolitan TAFE delivers this course at the Australian Centre for Energy and Process Training (ACEPT) Centre which is located at the Munster campus. This is a world-class, specialist training facility featuring a fully operational oil and gas facility and process plant. You will experience hands-on, practical training in a simulated real-life industry setting.

Students are required to undertake approximately 2.5 hours of supervised work placement per week during the course. This placement is undertaken on campus in a simulated work environment.

**Career opportunities**
- Person in Charge (PIC)
- Offshore Installation Manager (OIM)

**UniPathway options available at**
tafeinternational.wa.edu.au/unipathwayfinder
**PROCESS PLANT TECHNOLOGY**

**PMA60116 Advanced Diploma of Process Plant Technology**

**TAFE ID: BAM9 | 092175D**

**Why choose this course?**
Elevate your career in process plant technology and manufacturing through studying this qualification. This course extends the expertise gained at the diploma level and will further enhance your career prospects.

During your studies, you will learn about how to analyse plant performance, equipment and product failures, solve complex problems and manage risk and safety. You will also improve your ability to communicate with various stakeholders and manage processing teams. This course will broaden your existing skills and knowledge so that you can assist in the development of new products and contribute to plant modifications.

On completion of this course, you may be eligible for Associate Membership to Engineers Australia. You may also be eligible for advanced standing into relevant courses at university level.

Students are required to undertake approximately 1 hour per week of supervised work placement during this course. This placement is undertaken on campus in a simulated work environment. The ACEPT distillation process plant offers an opportunity to learn in a simulated real-life industry environment as it includes a control room, distillation tower and digital resources relevant to the process plant and oil and gas industries.

**Career opportunities**
- Person in Charge (PIC)
- Offshore Installation Manager (OIM)

**UniPathway options available at**
[tafeinternational.wa.edu.au/unipathwayfinder](http://tafeinternational.wa.edu.au/unipathwayfinder)

---

**SURVEYING**

**CPP60116 Advanced Diploma of Surveying**

**TAFE ID: BAH8 | 094757K**

**Why choose this course?**
Develop your career as a surveying assistant or technician with this qualification. Learn how to collect and analyse spatial data for complex engineering structures, roads, railways and surface and underground mining operations. This course will train you in the operation of sophisticated surveying equipment and software including Global Positioning System (GPS) and the processing of survey data to produce computer aided engineering drawings and mine plans.

Other skills you will also cover include processes to follow in order to conduct advanced Global Navigation Satellite System (GNSS) control surveys and complex engineering set-out surveys, how to manage risk and monitor engineering structures.

The advanced diploma qualification takes three years to complete, commencing with the certificate III level entry point. On completion of the diploma stage, you will be eligible for an associate membership of the Surveying and Spatial Sciences Institute (Engineering and Mining Commission).

**Career opportunities**
- Spatial Science Technician
- GIS Technician
- Surveyor

**UniPathway options available at**
[tafeinternational.wa.edu.au/unipathwayfinder](http://tafeinternational.wa.edu.au/unipathwayfinder)
Prepare yourself for a career in aviation without leaving the ground. Get the skills to manage the ground operations of an airport, and to support commercial and defence aviation flight operations. Developed in partnership with industry, these courses will equip you with the practical skills for a professional, non-flying career in aviation.
AVIATION

AVI50119 Diploma of Aviation (Aviation Management)

TAFE ID: AZT5 | 096731D

Why choose this course?
If you want a career in aviation without leaving the ground, then this course will develop your skills and knowledge in ground operations to support commercial and defence aviation flight operations. You will learn how to apply technical and non-technical aviation skills in a range of aerodrome and air transport operations including, passenger, charter, cargo, emergency service and government operations.

This diploma will provide you with the expertise to demonstrate autonomy, judgement and responsibility in known or changing circumstances that may arise in the aviation industry. It includes content on the strategic planning of airlines, the coordination of accident emergency plans of aerodromes, audit techniques and the basics of aerodrome management involving legislation and safe aerodrome works.

It is important to be aware that licensing, legislative, regulatory and certification requirements that apply to this course can vary between States and Territories.

Compliance with these requirements may be required nationally and/or in various jurisdictions globally. International students should confirm requirements for their own circumstances before they commence this course to determine if it is suitable.

This course is delivered at South Metropolitan TAFE’s Aerospace Training Centre, located at the Jandakot Airport. You will have access to a fully equipped aircraft hangar facility which contains various aircraft engines, workshop stations, computer facilities, a flight simulator and a number of aircrafts including a Boeing 737.

Career opportunities
> Aerodrome Manager
> Aviation Manager
> Business Manager
> Operations Manager
> Safety Manager

Disclaimer: Course information is correct at time of printing. Current course information is provided on the website at tafeinternational.wa.edu.au/courses.
Building and construction is one of the largest industries in the world, with billions of dollars invested in infrastructure and housing every year. TAFE has a number of courses that you can study, which will get you started in this ever-growing and fast-moving industry.

I graduated in Architecture a while before coming to Australia, but I wasn’t really happy with my career in Brazil. I decided to study Residential Building Drafting, to learn and understand Australian construction methods, regulations, building codes, and therefore, help me enter the architecture market. The course was different from Uni, but it’s great for its purpose. I have learnt a lot this year, and I’m happy I chose TAFE. It’s a hands-on course, where we learn exactly what the industry needs. I had great lecturers as well, who were extremely important for my learning.

Flavia Godoy Azevedo | Brazil
S2757WA Certificate IV in Residential Building Drafting
All courses listed require an IELTS score (Academic) 5.5 with no band less than 5.0 or equivalent, unless otherwise stated. Tuition fees are current at the time of printing and reviewed annually. BUILDING AND CONSTRUCTION

CPC50210 Diploma of Building and Construction (Building)

TAFE ID: W741 | 076414E

Why choose this course?
Advance your building and construction management career with this qualification. Learn the skills and knowledge to work in building management, production teams and the operations workforce to manage constructions from a small building business through to medium rise constructions.

During this course you will gain skills and knowledge of building codes and standards, structural principles, medium size building project management and supervise construction-planning processes. In addition you will study legal obligations and contracts, monitor costing systems and develop policies and procedures.

This course structure is based on Australian building codes and regulations. International students should consider if these regulations are applicable in your own country.

Upon completion of this course you can study further at university.

Career opportunities
» Builder
» Building and Construction Manager

UniPathway options available at tafeinternational.wa.edu.au/unipathwayfinder

CPP50911 Diploma of Building Design

TAFE ID: D772 | 079399G

Why choose this course?
Further your career as a building designer or draftsman with this qualification. This course will advance your drafting and design skills in ArchiCAD and Revit software for residential and small-scale building projects. Learn how to: identify and produce estimated costs; prepare concept designs and specifications; produce and present 3-D models; research and create client approved designs and drawings that are compliant and research the best construction materials and methods for building and construction projects.

You will cover principles of energy efficient design and sustainability for design projects and occupational health and safety requirements for this booming industry.

On completion of this diploma you will be able to work in a design office on commercial and residential projects with architects, builders, and project managers.

This course structure is based on Australian building codes and regulations. International students should consider if these regulations are applicable in your own country.

Upon completion of this course you may be able to study further at university.

Career opportunities
» Building Designer
» Architectural Draftsperson
» Building Drafter

UniPathway options available at tafeinternational.wa.edu.au/unipathwayfinder

CPC30111 Certificate III in Bricklaying / Blocklaying

TAFE ID: D390 | 077176F

Why choose this course?
Build your bricklaying/blocklaying career by completing this hands-on qualification. Gain the skills and knowledge to use tools and equipment to lay bricks for domestic, commercial and public building projects. This course covers techniques such as basic levelling procedures, basic demolition, measurements and calculations, erecting and dismantling restricted scaffolding and setting out a project.

You will also learn how to create arches and columns, build feature and curved walls and construct steps and ornamental panels. You will also develop the knowledge to interpret plans and an understanding of occupational health and safety requirements for the construction industry. This course is ideal if you love working outdoors, have good hand-eye coordination and the ability to complete work to a high standard.

Work placement
This course has a compulsory work placement which needs to be undertaken before you can successfully finish this course. Prior to this placement, you will be required to complete the Work Safely in the Construction Industry (White Card) unit of competency as this specifies the mandatory work health and safety training required prior to undertaking construction work. There is no extra cost for this unit.

CPC30211 Certificate III in Carpentry

TAFE ID: D391 | 077177E

Why choose this course?
Pursue your dream to become a carpenter with this practical, hands-on course that will teach you how to use explosive power tools and carpentry tools to build structures such as pitched roofs, ceiling frames, eaves, wall frames, roof trusses and flooring systems.

It covers techniques such as levelling operations, excavation, demolition of minor building structures, measurements and calculations, erecting and dismantling restricted scaffolding and setting out a project. You will also learn how to assemble partitions, construct bulkheads, build timber external stairs, construct, erect and dismantle formwork for stairs, ramps, footings, ground slabs, suspended slabs, columns, beams and walls.

Installing and replacing windows, linings, panelling and moulding is also part of the course content along with how to interpret plans and understand the occupational health and safety requirements for the construction industry.

This course is ideal if you love working outdoors with wood structures, have good hand-eye coordination and the ability to complete work to a high standard.

Work placement
This course has a compulsory work placement which needs to be undertaken before you can successfully finish this course.

Our creative industries courses are always current with the latest industry standards due to the valued partnerships we have with experts who have unparalleled experience and skills. You will have access to unique facilities and work placements which will give you exposure to help you succeed in your chosen career in fields such as graphic design, photography, interior design, screen and media, visual arts, mass communication, fashion and merchandising and music.

I had been travelling for 2 years and decided it was time to get a skill behind me to help me with my future. Whilst travelling, I fell in love with photography so I decided to pursue this passion by enrolling in the photography course at TAFE. This course pushed me outside of my comfort zone, and gave me the opportunity to create things I normally wouldn’t in my everyday life. It was great to have such knowledgeable Lecturers on hand that were always eager to help me in any way they could.

CREATIVE INDUSTRIES

MST60119 Advanced Diploma of Applied Fashion Design and Merchandising
TAFE ID: BDG8 | 095766A

Why choose this course?
Customise your career in the exciting fashion design and merchandising industry. This course is the final year of a three year pathway of fashion study. It culminates in a professional showcase of student collections at an industry-attended fashion show, and covers every aspect of a fashion cycle.
Learn a range of business design skills such as costing and pricing strategies, market research, branding and how to manage product development within the fashion design industry.
This course also covers specialised pattern making technologies, developing textile product ranges, merchandising, design concepts, retail buying and supply chain management.

Commencing at the certificate IV level the advanced diploma qualification will take three years to complete.

Work placement
This course includes a compulsory industry based work placement.
» South Metropolitan TAFE - 75 hours

Career opportunities
» Retail Manager
» Fashion Designer

CUA60615 Advanced Diploma of Screen and Media
Digital Cinema TAFE ID: AA77 | 093625G

Why choose this course?
Create your career in digital cinema. This course will equip you with the skills and knowledge necessary to work within the film and television industry. It gives you the opportunity to explore the nature of storytelling through the medium of digital cinema and helps you to evolve your ideas for professional creative work.
The course covers skill areas such as lighting design, developing story lines and treatments, directing cinematography, managing performers and crews for screen productions and editing complex screen productions.
You could find yourself working on content as varied as client-based corporate projects, micro dramas, documentaries and short-form narrative films with professional actors shot on cinema standard equipment.

You can choose to study this course at the diploma level or complete the full pathway to the advanced diploma.

Career opportunities
» Director
» Director of Photography
» Cinematographer
» Producer

## DIGITAL MEDIA

### ICT50915 Diploma of Digital Media Technologies

**TAFE ID:** AWD9 | 086710C

**Why choose this course?**
Further your career in the digital media technology industry with this qualification. Upgrade your skills set by learning how to develop mobile apps, creating and implementing designs for a 3D games environment, perform basic vision and sound editing techniques, design and produce animation and digital visual effects and design web environments. Graduates can work in a variety of roles designing, developing and refining digital media technologies as an independent information and communications technology specialist or as part of a team.

**Career opportunities**
- Digital Media Producer
- Digital Media Developer
- Digital Media Designer

### CUA60615 Advanced Diploma of Screen and Media

**Digital Art and Animation TAFE ID:** AA99 | 093625G

**Why choose this course?**
Explore new worlds using animation and games art, in this exciting industry. This course will provide you with high-end practical skills in concept art, 3D modelling, animation and special effects. You will benefit from strong industry connections and will have the opportunity to showcase your work to many of the largest studios in Perth at an end of year expo. On completion of your course, you will have created a show-reel of work and produced a game of your own.

**Career opportunities**
- 3D Character Creator
- Cinematographer
- Visual Effects Artist

### CUA60615 Advanced Diploma of Screen and Media

**Game Art and Design TAFE ID:** AB21 | 093625G

**Why choose this course?**
Further progress your artistic game art and design skills with this qualification. Learn hands-on artistic and technical training in game art and delve into designing games and scripting game interactions. You will develop creative abilities in 3D character modelling, texturing and rigging, concept art, environment and prop creation, level design and game play. The software that is used in this course includes Autodesk Maya, Unity, Pixologic Zbrush, Substance Painter and Designer and Adobe Photoshop, Premiere Pro and After Effects. You can choose to study this course at the diploma level or complete the full pathway to the advanced diploma.

**Career opportunities**
- Electronic Game Developer
- Games Designer
- Games Artist
- Level Designer
- 3D Modeller
- Animator
- Technical Artist
- Gameplay Programmer
EARLY CHILDHOOD EDUCATION AND COMMUNITY SERVICES COURSES

If you have an interest in working with children or want to help make positive changes to people in need, then TAFE can give you the practical skills to enter this rewarding industry. Our courses in early childhood education, aged care and community services will provide you with the knowledge and experience to work in direct services to children and clients of all ages and abilities.

“I chose to study at TAFE International WA because I can learn practical skills and I get to practice a lot by doing role plays and demonstrations. I also enjoy studying in Perth as it has a good environment to study and I enjoy the lifestyle.

Mikoto Nagaoka | Japan

"Studying at TAFE in Western Australia was great as the lecturers were very knowledgeable and the study mode is very holistic. This style of teaching prepared me well and by the time I started my practical studies, I was confident. I was also able to secure part-time work when I finished my fieldwork placement which allowed me to practice all the skills I had learnt during my studies."

Alfred Koech | Kenya

CHC50113 Diploma of Community Services
**EARLY CHILDHOOD EDUCATION**

**CHC50113 Diploma of Early Childhood Education and Care**

**TAFE ID:** J594

**Why choose this course?**

Advance your career helping children grow and develop in the early childhood education and care industry with this qualification.

Gain the skills and knowledge to manage the operation of a childcare centre to ensure that you provide a service to meet the social, emotional, physical and educational needs of infants and young children in various care settings.

Learn how to plan, implement and manage programs in early childhood services, in accordance with licensing, accreditation and duty of care requirements. You will also study ethical work practices, legal requirements of the industry, staff supervision and the obligations to maintain a safe and healthy workplace.

As part of this qualification you will undertake work placement where you will be able to apply the skills and knowledge you have learned.

An IELTS score of 6.0 with no bands lower than 6.0 is a requirement for entry into this course.

**Work placement**

This course has an off-site work placement at an approved early childhood education and care facility. You will be required to complete the following hours as part of the pathway:

- **CHC30113 Certificate III in Early Childhood Education and Care:**
  - North Metropolitan TAFE - 120 hours
  - South Metropolitan TAFE - 270 hours
  - South Regional TAFE - 240 hours

- **CHC50113 Diploma of Early Childhood Education and Care:**
  - North Metropolitan TAFE - 240 hours
  - South Metropolitan TAFE - 1069 hours
  - Central Regional TAFE - 415 hours
  - South Regional TAFE - 360 hours

**Career opportunities**

- Child Care Centre Coordinator
- Crèche Supervisor
- Child Care Supervisor
- Playgroup Leader

**UniPathway options available at tafeinternational.wa.edu.au/unipathwayfinder**

**COMMUNITY SERVICES**

**CHC43015 Certificate IV in Ageing Support**

**TAFE ID:** AWM9

**Why choose this course?**

Progress your community services career in the aged care industry helping elderly people live fuller and more independent lives. This qualification reflects the role of support workers who complete specialised tasks and functions in aged services, either in residential, home or community based environments.

Gain specialised skills to care for the elderly, who through ill health or disability are unable to care for themselves.

During your studies you will gain the practical skills and knowledge to plan, develop, implement and monitor programs and services for older people. Learn skills to assess the needs of older people with complex circumstances and plan and conduct group and recreation programs for older people. You will also learn how to monitor services, implement and monitor health and safety policies and procedures, organise an effective work environment and gain an insight and deeper understanding of the issues concerning aged clients and the service provision required.

**Work placement**

This course has an off-site work placement at a relevant community services agency. You will be required to complete the following hours as part of the pathway:

- **CHC32015 Certificate III in Community Services:**
  - South Metropolitan TAFE - 100 hours

- **CHC43015 Certificate IV in Ageing Support:**
  - South Metropolitan TAFE - 180 hours

- **CHC52015 Diploma of Community Services:**
  - North Metropolitan TAFE (Leederville campus) - 240 hours
  - North Metropolitan TAFE (Joondalup campus) - 300 hours
  - South Metropolitan TAFE - 240 hours
  - Central Regional TAFE - 267 hours

**Career opportunities**

- Personal Care Worker
- Community Worker
- Aged Care Worker
COMMUNITY SERVICES

CHC52015 Diploma of Community Services

090731G | TAFE ID: AWM0

Why choose this course?
Advance your fulfilling career in the community services sector through this qualification.

Gain the knowledge and skills to communicate and work effectively in the community services sector and learn how to develop and manage community programs, promote the social, emotional and physical wellbeing of clients and respond to critical situations when they arise.

Learn how to assist clients to access existing support systems and networks, as well as develop client centred programs, which will address their immediate and long-term struggles. You will also acquire high-level communication skills and the ability to develop strategies for high-risk groups within the community using legal and ethical compliance frameworks. Community service workers have a powerful effect on the lives of individuals and on the way our society deals with social changes, challenges and issues.

On completion of your course you can find employment in the private and government sector, or not-for-profit organisations in areas as broad as youth programs, alcohol and drug centres, non-clinical mental health settings, multicultural services, disability and aged care.

Work placement
This course has an off-site work placement at a relevant community services agency. You will be required to complete the following hours as part of the pathway:

- South Metropolitan TAFE - 100 hours

CHC42015 Certificate IV in Community Services:
- North Metropolitan TAFE (Leederville campus) - 120 hours
- North Metropolitan TAFE (Joondalup campus) - 120 hours
- South Metropolitan TAFE - 120 hours
- Central Regional TAFE - 120 hours

CHC52015 Diploma of Community Services:
- North Metropolitan TAFE (Leederville campus) - 240 hours
- North Metropolitan TAFE (Joondalup campus) - 300 hours
- South Metropolitan TAFE - 240 hours
- Central Regional TAFE - 180 hours

Career opportunities
- Community Service Worker
- Family Support Worker
- Welfare Worker
- Welfare Case Worker

UniPathway options available at tafeinternational.wa.edu.au/unipathwayfinder
The health and beauty industry offers a range of rewarding and challenging career opportunities. Our courses in remedial massage and beauty will give you the practical skills, to start your pathway to a career in supporting and motivating people towards achieving goals and improving self-esteem.

I started yoga by chance in my 30's and opened a yoga studio. I taught many students and saw a number of people developing serious illnesses, so I offered to give them a small massage after class. Many people were very grateful so I thought that I might be able to provide some help in advanced pain relief after learning about remedial massage and different techniques. At TAFE I have learnt a lot of practical skills which is the best thing for my career. After studying this course I will go back to my yoga business and expand it with remedial massage services.

HOSPITALITY

SIT60316 Advanced Diploma of Hospitality Management

TAFE ID: AZV5 | 091138F

Why choose this course?
Progress your hospitality management career further with this qualification. Acquire strong practical skills and leadership capabilities in a range of areas such as managing diverse teams within the hospitality industry, recruiting and inducting staff, managing staff performance, managing assets, coordinating in-house events, and managing finances.

On completion of this course, you may find employment as an operations manager, food and beverage manager, duty supervisor or front office manager. You may also decide to undertake further study at university.

Work placement
Students will undertake simulated work placement in training restaurants on campus that are open to the public.

Career opportunities
» Hotel Service Manager
» Hotel Manager

UniPathway options available at tafeinternational.wa.edu.au/unipathwayfinder

COMMERCIAL COOKERY

SIT30816 Certificate III in Commercial Cookery

TAFE ID: AZU5 | 095474B

Why choose this course?
Start the journey to an exciting career in commercial cookery. Gain the practical skills and knowledge to be able to plan, organise, prepare and cook food in a range of commercial work spaces including restaurants, hotels, clubs, pubs, cafes and coffee shops.

Learn how to produce dishes that are suitable for different cultural and dietary requirements, ensuring food safety, kitchen hygiene and workplace health and safety standards are maintained.

During your course you will practice your cooking skills in the training kitchens and restaurants located on campus. These facilities will give you the opportunity to plan menus, work as part of a team and prepare a range of meals in a professional manner.

Career opportunities
» Commercial Cook (non-trade status)

SIT40516 Certificate IV in Commercial Cookery

TAFE ID: AZW3 | 095473C

Why choose this course?
Further your career pathway in commercial cookery with this qualification that follows on from the SIT30816 Certificate III in Commercial Cookery and provides you with extended skills to be able to work as a Supervisor/Team Leader Cook in a range of commercial kitchens.

Gain the knowledge to lead a team and manage workplace conflict, whilst introducing food safety programs and maintaining hygiene and workplace health and safety. Your skills will become more advanced at the planning, preparing and cooking stages of food to ensure that all dietary requirements can be accommodated.

You will have access to the training kitchens and restaurant located on campus where you can practice your cooking skills. The restaurant is open to the public, and you will be part of an allocated team that will be responsible for providing food service to patrons at lunch and dinner sittings.

Career opportunities
» Commercial Cook (non-trade status)

» Central Regional TAFE - 48 hours

Career opportunities
» Assistant Patisserie

SIT40716 Certificate IV in Patisserie

TAFE ID: AZT6 | 096026G

Why choose this course?
Fine tune your creative skills in making sweet masterpieces delicious pastries and cakes with this qualification. This course further builds your skills so that you can take on a leading supervisory role in the kitchen and work quickly and effectively in a commercial kitchen team to plan, prepare and bake cakes, sponges, tarts, pastries, chocolate and sugar pieces. Learn about financial management, staffing and teams, cleaning, food safety programs, hygiene, managing workplace conflict, and workplace health and safety.

When you finish your studies, you will have developed some amazing creativity and flare and have an excellent eye for detail to create centre pieces with sugar, pastillage and chocolate using the latest baking equipment and machinery. You will graduate with the skills to work as a patissier or pastry chef in a patisserie, restaurant, or hotel.

Career opportunities
» Patissier

When I came to Australia to live I didn’t have strong English skills so I couldn’t speak well and I couldn’t understand anyone. I worked in a café as a barista. I watched the chef in the kitchen and he was happy to show me how a kitchen worked. It was from then that I really found my love for the kitchen. I was reminded of memories seeing my mum cooking when I was little and then when I saw that chef with all his passion for cooking and it was when I decide to start a course in commercial cookery.

My goal is to become a lecturer one day, I know that this is going to take a while for me so I have a long pathway to follow and I will keep working in kitchens I will keep gain knowledge and getting experience to follow through until I get to my goal that’s to become a lecturer.

If you want practical skills and knowledge in land, conservation and environmental management, then choose TAFE to get your career started. Our courses in conservation, horticulture, landscaping, environmental and laboratory techniques will give you the ability to transfer your knowledge across a diverse range of industries.

Western Australia has the most amazing plants in the world. This made it much easier to study here. The training course helped me to apply for volunteer jobs and casual jobs while I was studying. Luckily I got a job in a company that builds nature playgrounds for children. This was the philosophy that I was looking for, helping reconnect kids with nature. I think kids are the future of a more sustainable world, which is what we need now.

I think the practical classes and all the lecturers were amazing. They really helped us to see what the market and industry were asking for, which made an easier pathway to find a job.

Rui Scheidt Feix | Brazil

LAND MANAGEMENT

AHC51116 Diploma of Conservation and Land Management
TAFE ID: BDA6 | 092602A

Why choose this course?
Turn your commitment to the environment into a successful career in conservation and land management with this qualification. Gain skills and knowledge across a range of areas such as land management, natural resource management, and mine site rehabilitation. Choose from a range of electives to specialise in such as weed management, vertebrate pest management, conservation earthworks and natural area restoration.

In addition you will also study business skills such as project management, report writing, developing implementation plans, applying environmentally sustainable work practices and maintaining work, health and safety requirements.

On completion of this course you will ready for a rewarding career in conservation work, parks and wildlife, or regeneration work.

Career opportunities
» Natural Resource Manager
» Environmental Officer
» Landcare Manager
» Park Ranger

UniPathway options available at 
tafeinternational.wa.edu.au/unipathwayfinder

AHC50416 Diploma of Horticulture
TAFE ID: BDD0 | 092586G

Why choose this course?
Take the next step with your passion for a career in horticulture with this qualification. Learn the vital business skills needed to manage large projects including preparing estimates, quotes and tenders, selecting plants and landscape solutions, managing plant health programs, developing production plans and managing staff and services.

During this course you will also gain the skills and knowledge required to design, plan, implement, manage and evaluate horticultural operations and processes and how to effectively manage and maintain public and private parks, reserves, gardens, natural bushland and community recreation areas.

Employment prospects exist in local government, state government, nursery and turf, floriculture, gardening and the landscape industry.

Career opportunities
» Horticultural Manager
» Nursery Manager
» Parks and Gardens Manager
» Landscaper

ENVIROMENTAL MANAGEMENT

MS50218 Diploma of Environmental Monitoring and Technology
TAFE ID: BEA8 | 0100002

Why choose this course?
Advance your career in the management of environmental issues with this qualification. Environmental management is a global concern as we search for ways to minimise conservation and environmental impacts of business.
Gain practical experience in conducting tests in the field and also in on-site laboratories, as well as preparing samples for laboratory submissions. These skills are used in most industry sectors to assist environmental scientists, engineers and planners with site assessments to be able to manage and conserve natural systems and resources, minimise pollution, remediate/rehabilitate sites and trial practical strategies to protect and improve ecosystems.

Career opportunities
» Environmental Officer
» Life Science Technician
» Environmental Technician
» Natural Resource Management Officer

UniPathway options available at tafeinternational.wa.edu.au/unipathwayfinder

MSL50118 Diploma of Laboratory Technology
TAFE ID: BDV4 | 099966E

Why choose this course?
Take your science skills to the next level with this qualification. If you want to work in laboratories in a range of exciting fields, then this course provides you with the essential technical skills and techniques to use industry standard equipment, laboratory application software and the methodology to communicate findings to customers.

This course teaches how to analyse, process and interpret data, report results and apply quality system and continuous improvement processes. You will be able to transfer your skills across a diverse range of industries such chemical, medical and pathological, mining, biological and environmental fields.

Career opportunities
» Chemistry Technician
» Technical Laboratory Officer
» Laboratory Technician
» Instrument Operator

UniPathway options available at tafeinternational.wa.edu.au/unipathwayfinder

I enjoy all my laboratory technology lectures and laboratory work classes because I am know I am on the right path for my career. The laboratory is well equipped and there are frequent in class experiment activities. I must say that the lecturers are truly hands-on and helpful. After completing this course at TAFE I want to pursue a Bachelor program in Medical Laboratory Science in Western Australia. If that happens I feel that I will unlock many possibilities for my career and this qualification can take me to any country in the world.

Sharmaine Guiao | Philippines
MSL40118 Certificate IV in Laboratory Techniques
The maritime industry is a specialist area, and TAFE can help you to achieve an internationally recognised and industry approved qualification. Whether you are interested in becoming a Deck Watchkeeper, a Master in the maritime industry or a Marine Engineer, the comprehensive training facility located at the Fremantle campus, will ensure that you have the best experience during your studies.

“WA is one of the only locations in the world to have a training simulator. Perth is very beautiful; it is a multicultural society with a lot of people in a small city. Everyone is friendly and interactive.

I’m a scuba diver so I’m going forward to going to Rottnest Island! I’m learning a lot because I’m changing career paths within the maritime industry. TIWA assessed my application and issued the offer very quickly.

The best thing about my course is getting to go out on an actual ship and do exercises at sea. I would definitely recommend studying this course to my family and friends.

Mohammad Nooroudeen Mosadeea | Mauritius

MARITIME

MAR50315 Diploma of Maritime Operations (Watchkeeper Deck)

TAFE ID: AWO1 | 088804C

Why choose this course?
Embark on your career in the maritime industry. This qualification will provide you with the skills and knowledge you need to meet the academic requirements for certification in maritime operations, as described in Marine Orders – Part 3 – Seagoing Qualifications (Version 6) under the Australian Navigation Act 1912. This course covers marine safety, communications, ship knowledge, seamanship, cargo and bridge operations.

In order to be eligible for the Australian Maritime Safety Authority (AMSA) Watchkeeper Deck Certificate of Competency, you should have 18–36 months qualifying sea services on appropriate ships as a Deck Cadet or equivalent in an approved program. This is required to be assessed by AMSA.

Below are requirements for entry into this course. To be considered, you must have:

a. completed a pre-sea course and an AMSA approved and monitored onboard training program for trainee Deck Officers including at least 24 months documented qualifying seagoing service on vessels at least 500 GT, OR
b. completed at least 36 months documented qualifying seagoing service on vessels at least 24 metres AND have served the qualifying seagoing service mentioned above (a) and (b) WITH AT LEAST 12 months on vessels on voyages of at least 24 hours duration AND at least 6 of the 12 months mentioned as documented understudy of the officer in charge of a navigation watch on a vessel.

Based on any certificates or qualifications that you may already hold, you may also be required to undertake additional short course qualifications as specified by AMSA. This is an AMSA requirement for certification for all seafarers. The fees may be up to $9,996 depending on your training.

More information is available at the AMSA website (amsa.gov.au). Students are encouraged to refer to this website on a regular basis as frequent changes may occur.

Career opportunities
» Deck Watchkeeper
MAR60315 Advanced Diploma of Maritime Operations (Master Unlimited)

TAFE ID: AWN9 | 088806A

Why choose this course?
For a career as a Master in the maritime industry on ships of any gross tonnage in any operating area, this qualification will provide you with the skills and knowledge you need to meet the academic requirements for certification as a Master Unlimited as described in Marine Orders Part 3 – Seagoing Qualifications (Version 6) under the Navigation Act 1912.

It provides you with the practical skills and knowledge appropriate to the management of a vessel in the area of marine safety, bridge and cargo operations, stability, marine law, ship management, construction and maintenance. You will also learn vessel handling skills, navigational safety and command operations as well as management skills required for this industry.

Students who wish to enter this course must meet the following Australian Maritime Safety Authority (AMSA) requirements:

a. have completed at least 12 months documented qualifying seagoing service in charge of a navigation watch on vessels >500 GT WHILE holding a Certificate of Competency as a Watchkeeper Deck AND on vessels on voyages of at least 24 hours duration.

Based on any certificates or qualifications that you may already hold, you may also be required to undertake additional short course qualifications as specified by AMSA. This is an AMSA requirement for certification for all seafarers. The fees may be up to $9996 depending on your training.

This course is currently cited as meeting some of the requirements for certification as a Master (Unlimited) as described in Marine Orders 70 and 71(2014) under the Navigation Act 2012 by the Australian Maritime Safety Authority (AMSA). Full certification will require achievement of the MAR60315 Advanced Diploma of Maritime Operations (Master Unlimited), with seagoing service requirements and other requirements.

More information is available at the AMSA website (amsa.gov.au). Students are encouraged to refer to this website on a regular basis as frequent changes may occur.

Career opportunities
» Marine Manager
» Master
» Nautical Surveyor

MAR60115 Advanced Diploma of Maritime Operations (Marine Engineering Class 2)

TAFE ID: AVQ3 | 086367B

Why choose this course?
For a career in marine engineering, this is the course to choose. You will study mechanics, thermodynamics, electro-technology and naval architecture. During your studies you will learn about electrical, electronic and control engineering along with the operation and maintenance of marine engineering plant and equipment. You may also elect to undertake steam systems training as an additional skill set.

You will also cover information relating to maritime resource management and how to provide leadership to crew members. This course is recognised by Australian Maritime Safety Authority (AMSA) as part of the requirements for the award of a Certificate of Competency as an Engineer Class 2. Successful completion of this course, requires sea time plus the AMSA oral examination which enables students to obtain the AMSA certificate.

Below are requirements for entry into this course. To be considered, you must:

a. be part of an AMSA approved engineer cadet program of at least 3 years duration; OR
b. have completed the following documented qualifying seagoing service – a Certificate of competency which is at least 12 months of qualifying seagoing service on vessels at least 750 kW propulsion power while holding an Engineer Watchkeeper certificate OR its equivalent of which at least 9 months was on vessels using propulsion of the kind to which the certificate relates OR if holding an Engineer Watchkeeper Certificate of Competency or any other Certificate that AMSA considers to be at least equivalent to an Engineer Watchkeeper.

Based on any certificates or qualifications that you may already hold, you may also be required to undertake additional short course qualifications as specified by AMSA. This is an AMSA requirement for certification for all seafarers. The fees may be up to $9996 depending on your training.

This course is currently cited as meeting some of the requirements for certification as an Engineer Class 2 as described in Marine Orders 70 and 71(2014) under the Navigation Act 2012 by the Australian Maritime Safety Authority (AMSA). Full certification will require achievement of the MAR60115 Advanced Diploma of Maritime Operations (Marine Engineering Class 2), with seagoing service requirements and other requirements.

More information is available at the AMSA website (amsa.gov.au). Students are encouraged to refer to this website on a regular basis as frequent changes may occur.

NURSING

HLT54115 Diploma of Nursing

Why choose this course?
Turn your passion for caring and helping others into a rewarding career in the healthcare industry. This course provides you with the current skills and knowledge in order to fulfill the registration requirements of the Nursing and Midwifery Board of Australia (NMBA) and to practice nursing in a variety of settings, including mental health, primary health, acute care, aged care and palliative care areas.

You will gain all the requirements aligned to current industry trends and will graduate with the following skills.

» How to assist in the provision of preventative, curative and rehabilitative nursing
» Have an understanding of anatomy and physiology
» How to implement infection prevention and control measures
» How to provide nursing care for the client
» How to understand Australian legal and ethical parameters of nursing practice
» How to provide person centred care where independence and empowerment is fostered
» How to implement culturally safe care for Indigenous Australians and Torres Strait Islander people
» How to contribute to the care of people with mental health issues

A large component of your studies will be a clinical placement where you can practice your skills and attributes. Upon completion of this course you will have the qualities required to become a qualified Enrolled Nurse.

All students enrolled in the HLT54115 Diploma of Nursing course are registered with the Australian Health Practitioner Agency (AHPRA) for the duration of their course. On successful completion of all course requirements, you may be eligible for registration with the Nursing and Midwifery Board of Australia (NMBA).

In Australia, nursing qualifications are accredited by the Australian Nursing and Midwifery Accreditation Council (ANMAC). ANMAC is accountable to the Nursing and Midwifery Board of Australia (NMBA) for assuring the Australian community that graduates of accredited programs can practice and care for people in a safe and competent manner.

ANMAC accredits nursing qualifications in accordance with a set of standards. Please refer to their website for more detailed information.

anmac.org.au/standards-and-review/enrolled-nurse

Please note that the Nursing and Midwifery Board of Australia (NMBA) requires students to have an IELTS score (academic module) with a minimum overall score of 7.0 and a minimum score of 7.0 in each of the four components (listening, reading, writing and speaking) to meet their registration requirements. Please visit our website for further information regarding the enrolment requirements needed to study this Diploma.

Work placement
This course has an off-site work placement at an approved health care facility or hospital. You will be required to complete the following hours:

» North Metropolitan TAFE - 400 hours
» South Metropolitan TAFE - 496 hours
» Central Regional TAFE - 410 hours

Career opportunities
» Enrolled Nurse

Disclaimer: Course information is correct at time of printing. Current course information is provided on the website at tafeinternational.wa.edu.au/courses
TIWA offers pathways to four of Australia’s leading universities. With a large range of UniPathway combinations, TIWA offers more study options for students.

What is a UniPathway?

If you would like to study a university degree, and don’t have the academic requirements, then a TIWA UniPathway can help you reach your education goals.

How does it work?

TIWA has a number of diploma and advanced diploma courses that can be packaged with bachelor degrees. If eligible, you will receive two offers – from TIWA and from your chosen university. UniPathways allow you to have a planned pathway for study at VET and university level. On completion of your TAFE and university studies, you will have two qualifications that will give you a competitive edge in the global job market. Some courses at TAFE have a strong practical component, which is in high industry demand.

UniPathway Packages

TIWA has partnerships with Curtin University, Edith Cowan University, Murdoch University and The University of Notre Dame. We can arrange a TAFE to university packaged offer for a wide range of courses. This allows you to apply for one student visa and the university degree will be your principal course.

Please read the following before you apply for a university package.
» You must apply through an education agent registered to represent both TIWA and your chosen university.
» You can package English with your TAFE and university courses, but the duration of your English studies will be limited.
» You must request the university package at the time you are applying for TIWA.
» Any advanced standing or credit for recognised learning will be reflected on your university offer.

UniPathway options available at tafeinternational.wa.edu.au/unipathwayfinder

Information regarding university pathways is correct at the time of printing and may change at any time.

Articulation

If you want to keep your study options open, you can still apply to study at university at a later date. TIWA has a number of diploma and advanced diploma courses that will give you advanced standing or credit for recognised learning once you complete your studies. These credit transfers will be applied when you commence your undergraduate degree studies at university and will vary depending on the course and electives you have completed with TIWA.

You can visit our website or contact the universities directly for more information.

“

It was difficult for me to apply directly to university so I decided to study at a TAFE college first and take a pathway to university. The reason for doing so is not only because it was an easier pathway but also because TAFE Western Australian colleges are government owned and I believe that the lecturers are highly qualified educators.

Learning software development was very challenging for me because I had never studied it before in my home country. However when I tried it, it turned out that it was very easy to follow even though I was new to that course. I really liked this course because the lecturer was very friendly, easy to communicate with and always helped answer my questions. This course has also given me many practical experiences that have helped to build skills and also improve my English ability.

Christina Tatang | Indonesia
ICT50715 Diploma of Software Development

...
Why Choose Curtin University?
» Western Australia’s largest and most preferred university.
» Globally recognised for strong connections with industry, high-impact research and a wide range of innovative courses.
» Ranked second in the world for mineral and mining engineering (QS World University Rankings by Subject, 2020) and in the top one per cent of universities worldwide (Academic Ranking of World Universities, 2019).
» Campuses in Perth, Kalgoorlie, Malaysia, Singapore, Dubai and Mauritius.
» Before becoming a university in 1986, Curtin was the Western Australian Institute of Technology. Curtin’s relationship with vocational and technical learning is strong, as is its partnership with TAFE in Western Australia.
» Curtin’s main Perth campus shares the same education precinct as South Metropolitan TAFE’s Bentley campus.

Why Choose Edith Cowan University?

» Edith Cowan University (ECU) graduates have given ECU a five-star rating for teaching quality, for 13 years in a row (Good Universities Guide 2020).
» ECU has been ranked in the world’s top 150 universities under 50 years old in the 2019 Times Higher Education Young Universities Rankings.
» ECU is Australia’s top public university for undergraduate teaching quality. This ranking has been achieved for five years running through the government’s independent QILT survey.
» ECU has been ranked in the top 100 universities in the 2019 Times Higher Education Asia-Pacific Rankings.
» As a long-standing ECU partner, TIWA is a preferred pathway to the University for many international students.
» With several North Metropolitan TAFE and ECU campuses located in close proximity, and with numerous UniPathways available, there are many options to choose from.

Why Choose Murdoch University?

» Murdoch has a five-star rating for student support, overall experience and teaching quality (The Good Universities Guide 2020).
» Murdoch has a 90% overall satisfaction rate for the international student experience (2019 International Student Barometer Survey).
» Murdoch provides everything you would expect from a world-class university, including leading academics, world-changing research, excellent facilities and a wide range of courses.
» Murdoch is home to over 24,000 students from 85+ countries.
» Murdoch has received the highest possible ranking for research in Physical Chemistry, Environmental Science and Management, Zoology, Agricultural Biotechnology, Clinical Sciences and Medical Microbiology (Excellence in Research for Australia 2018 Australian Research Council).
» Murdoch’s Perth campus is located 15 minutes south of the Perth CBD and is easily accessible from a range of locations via Perth’s public transport network.

» Murdoch is ranked in the Top 100 universities in the world under 50 years of age (Times Higher Education Young University Rankings 2019).
» Located on 227 hectares of native Australian bushland, Murdoch is one of Australia’s largest and most beautiful university campuses.
» Not only can TIWA students take advantage of the many UniPathways to Murdoch, but they can also access Murdoch’s on-campus Student Village accommodation.

Support at TIWA

TIWA can assist with a range of issues relating to your enrolment including:

» advice on courses and pathways;
» your application for enrolment;
» updating your contact details (ie address, email, mobile), and
» how to pay your fees.

Student events

We have a range of activities, both on and off campus, which can give you the opportunity to meet other international and local students in a fun and relaxed environment.

Contact us

Once you arrive in Perth, you can visit us at the following address.

East Perth TAFE campus
Building B, Level 2, 140 Royal Street
East Perth

You can also call us on +61 8 9218 2100
or send us an email at admissions.tiwa@dtwd.wa.gov.au

Support at your TAFE college

The International Centre at your TAFE college can also provide support for any study or personal issues including:

» advice and support on courses and pathways;
» application for continuing enrolment;
» advice on change of course/unit pathways;
» updating your contact details (ie address, email, mobile numbers);
» monitoring class attendance and progress;
» orientation;
» safety and welfare advice;
» identifying suitable accommodation in local suburbs;
» Transperth information on public transportation (buses and trains);
» class timetables; and
» student ID cards.
Make the most of your study experience in Western Australia by finding a safe and comfortable place to live.

Arrival

On your arrival in Perth, airport pick-up can be arranged at a cost of $130. You will be taken directly to your homestay family, temporary accommodation, or your own accommodation. Australian Homestay Network (AHN) can organise this service for you. A taxi from the airport to central Perth costs approximately $50. An airport bus ($20) is also available and can drop passengers at central city hotels.

Visit the Study Perth Welcome Desk in the T1 arrival hall to collect your welcome gift and get advice for your life in Western Australia.

For more information visit studyperth.com.au

I love living in Perth as there is so much to enjoy both in the city area and in the outdoors. The beaches in Perth are the best I have ever seen, it is very clean and make it feel like I’m living in a paradise. Also I feel great to live in such a multicultural city and it has allowed me to learn a lot more about Australian culture as well as other cultures from around the world.

Hon (Abby) Zheng Shing | Malaysia
SIT50316 Diploma of Event Management
Accommodation

Homestay
The Australian Homestay Network (AHN) can organise a homestay that will allow you to live with an Australian family. This is very popular because you can make friends, embrace the Australian lifestyle and improve your English. Homestay is compulsory for students under 18 years of age. Homestay costs between $180 – $325 per week, depending on your age and level of service provided. There is also a placement fee of $290.*

You may also wish to consider a four week short homestay placement. For more information and to make a booking visit homestaynetwork.org

Rental accommodation
Many students choose to share a rental house or apartment with other students as this reduces costs. The average rental price for a furnished room in share accommodation can range from $70–$250 per week. This cost does not usually include electricity, water or gas.

Perth has brand new student accommodation available in the heart of downtown Perth which provides a great opportunity to meet other students.

Campus Perth - campusperth.com

Campus living villages
Accommodation is available to TAFE international students at several different Campus locations in Western Australia.

- Edith Cowan University (ECU) Village, Mt Lawley – rooms start from $170.00 per week.
- Murdoch University Village, Murdoch – rooms start from $153.00 per week.
- Edith Cowan University (ECU) Village, Bunbury – rooms start from $192.00 per week.
- Pepperell Village, Geraldton – rooms start from $140 per week.

The campus living villages may also require other fees to be paid at the time of application including security deposits and application fees. More information can be found by clicking on the individual links provided on our website at tafeinternational.wa.edu.au/accommodation

Temporary accommodation
There is a range of temporary accommodation on offer in Perth, which you can search for on the internet and book online.

There are hostels and guest houses that range from $30 per night for a shared room and $60 per night for a private room.

For more information about any of these accommodation options please visit tafeinternational.wa.edu.au/accommodation

* These fees are current as at 2020 and are reviewed each year.
Living Expenses

The table below outlines an example of the living costs you may incur as an international student in Australia.

<table>
<thead>
<tr>
<th>Item</th>
<th>Cost per week (AUD)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Rent (shared)</td>
<td>$70 - $250</td>
</tr>
<tr>
<td>Food and eating out</td>
<td>$80 - $280</td>
</tr>
<tr>
<td>Gas, water, electricity, phone (landline)</td>
<td>$60 - $140</td>
</tr>
<tr>
<td>Phone and internet</td>
<td>$20 - $55</td>
</tr>
<tr>
<td>Public transport</td>
<td>$15 - $55</td>
</tr>
<tr>
<td>Entertainment</td>
<td>$80 - $150</td>
</tr>
</tbody>
</table>

Overseas Health Cover

All international students studying in Australia are required to pay Overseas Student Health Cover (OSHC) for the entire duration of their student visa.

OSHC is offered by a number of different providers and you must purchase your health cover from a government approved provider. You should compare alternative OSHC providers to find one that suits your budget and needs.

You will need to show evidence of your health cover payment to the Department of Home Affairs when you apply for your student visa.

To view more information, please visit our website at: tafeinternational.wa.edu.au/help-and-advice/health-cover
